## Office Policy for Special Order Items and Non-Covered Services

At Mason Family Chiropractic, we strive to provide the best care possible to our patients.

*Customized* orthotics, rehabilitation services and specialized equipment for home use, physical therapy modalities (ultrasound, electrical muscle stimulation, laser treatment, etc.) as well as blood work, hair analysis and nutritional evaluations and products may be recommended. It has been my experience through many years of practice that these services and supplies help people with a variety of complaints to lead more active and less painful lives.

Insurance filing is a service we willingly provide. However, not all services or items recommended are covered by insurance. In the event that your insurance denies payment for any reason, it is therefore the patient's/responsible party's responsibility to pay for these items and/or services. We are not responsible for the insurance company's contract regarding what they deem medically necessary and what they deny for payment, nor how much they will allow for payment. The contract is between you and your insurance company and many policies are set forth from your employer if it is a group policy.

By signing below, you accept financial responsibility for these services and/or supplies regardless of your insurance company's coverage.

I have read the above notice and understand that the balance due will be my responsibility.
